## INVITATION

# Danish Animal Farming Tour to Ukraine 4-8 October 2021

The Embassy of Denmark in Kyiv and the Danish Agriculture & Food Council invite your company to join the export promotion tour to Ukraine. The upcoming market visit will be focused on efficiency and sustainability in pig production. The participating companies will benefit the 75% co-financing from the Trade Council.

### MARKET OF OPPORTUNITIES

Throughout the past 20 years, the agricultural investments have been among the most profitable in Ukraine. That has mainly been thanks to the favourable production conditions, low input costs and an increasing domestic demand as well as good exporting opportunities. This refers also to a pig production sector that still has a significant potential to grow.

In 2020, Ukraine has announced New Pig Production-2025 programme that is aimed to build the pig herd to 20 million head by 2025, produce one million tonnes of pork for the domestic market and two million tonnes for exports. In Ukraine, over 2/3 of commercial pigs in Ukraine are produced on the 124 largest production sites. With the potential for growth, the Ukrainian pig producers need to enhance their competitiveness both on domestic and global markets. That is hardly possible without implementation of the best pig production practices and modern solutions.

Come and meet the largest Ukrainian pig producing companies!

### WHO SHOULD PARTICIPATE?

- Producers of pig farming equipment
- Pig breeding companies
- Producers of feeds and additives
- Providers of IT solutions for farm management
- Producers of biosecurity solutions

### WHAT YOU GET?

- Full business program including tailor-made B2B meetings with the local pig producers and visits to the largest production companies
- Expanded networking opportunities
- Market knowledge and your company's brand awareness
