TRANSFORMING GLOBAL FOOD SYSTEMS UNDER CLIMATE CHANGE

Achieving zero emissions

RESEARCH PROGRAM ON
Climate Change,
Agriculture and
Food Security

Danish Agriculture
& Food Council

UNIVERSITY OF
COPENHAGEN

How do global food systems need to transform and how can such a transformation be achieved?

**JOIN US IN COPENHAGEN
FOR A ONE DAY SEMINAR &
HIGH-LEVEL PANEL!**

The event will focus on three actions:

- Driving progressive change through **collaboration** between industry and social movements: facts, youth and networking
- Towards healthy and sustainable climate-friendly **diets**: current shifts and likely future scenarios
- Reducing **food loss and waste**: options and breakthroughs
